## Chapter 13 - Traffic Signals

### 13A General Information

13A-1-----General Information

- A. Introduction..... 1
- B. Scope..... 1
- C. Definitions..... 2

### 13B Traffic Control Signal Needs Studies

13B-1-----Traffic Control Signal Needs Studies

- A. General..... 1
- B. Data Collection..... 1
- C. Warrants..... 3

### 13C Features

13C-1-----Features

- A. Traffic Control Signal Features..... 1
- B. Pedestrian Control Features..... 2
- C. Agency Specific Information..... 2
- D. Preliminary Signal Design Discussion List..... 3
- E. Additional Information..... 4

### 13D Design Considerations

13D-1-----Design Considerations

- A. Geometrics..... 1
- B. Operational Characteristics ..... 6
- C. System (Arterial) Considerations..... 7
- D. Signal Design Elements..... 8
- E. Traffic Signal Operations..... 9
- F. Pedestrian Considerations..... 9
- G. Driver and Pedestrian Expectations..... 11
- H. Future Development and Improvements..... 11

### 13E Specifications Information

13E-1-----Specifications Information

- A. Part 1 - General..... 1
- B. Part 2 - Products..... 3
- C. Items Requiring Supplemental Specifications..... 16
